<sup>1</sup> Tenant usage for 2008 derived from submeter data and assumption of 10% of total purchase for common area usage.

Tenant and common area usage is assumed to remain the same for subsequent years.

<sup>2</sup> Increase for 2011 over 2010 is calculated as an average of 2009 and 2010 increases

<sup>3</sup> Leakage for 2011 is derived from calculated year over year increase in gallons billed
